Liste B:

Liste B indeholder de lægemidler, hvor der til udlevering kræves ordination af læge, dyrlæge eller anden dertil autoriseret sundhedsperson, jf. § 7, stk. 1, nr. 2, i landstingsforordning nr. 1 af 12. maj 2005 om lægemidler.

Listen indeholder oplysninger om:

1. Lægemidlets navn.
2. Producent.
3. Varenummer.
4. ATC-kode.

Ad 1)

Lægemidlets navn er det navn, der anvendes af sundhedsvæsenets leverandør.

Ad 2)

Den i listen anførte producent er den, der ved ansøgning om markedsføringstilladelse er anført som enten producent eller ansvarlig importør.

Ad 3)

Varenumre fremmer sikkerheden i forbindelse med medicinvirksomheders, grossisters og apotekers håndtering af lægemidler, og det er samtidig en forudsætning for pålidelige lægemiddelstatistikker.

Hver enkelt lægemiddel er tildelt et varenummer, og det enkelte lægemiddels styrke, doseringsform og pakningsstørrelse kan identificeres herudfra.

Ad 4)

”Anatomical Therapeutic Chemical classification system”.
